The breakups of the Soviet Union, Yugoslavia, and Czechoslovakia, and the unification of Germany, have made it difficult for this table to show the progression of nuclear contribution over a number of years for the countries that have emerged from these changes in sovereignty. For comparison, the figures for the earlier nations are as follows:

| Country         | 1991 | 1990 | 1989 | 1988 | 1987 | 1986  | 1985  |
|-----------------|------|------|------|------|------|-------|-------|
| West Germany    | —    | 37.8 | 34.3 | 34.0 | 31.3 | 29.4  | 31.2  |
| Czecho-Slovakia | 28.6 | 28.4 | 27.6 | 26.7 | 25.9 | 21.1  | 14.6  |
| USSR            | 12.6 | 12.2 | 12.3 | 12.6 | 11.2 | 10.1* | 10.3* |
| Yugoslavia      | 6.3  | 5.3  | 5.9  | 5.2  | 5.6  | 5.4   | 5.2   |
| East Germany    | —    | 5.0  | 10.9 | 9.5* | 9.7* | 9.7*  | 11.2  |

\*Estimated.
